

My VYVGART® Path

Insurance and Coverage Guide

Explore resources to help you navigate insurance throughout your journey

Understand your insurance

VYVGART is widely available. 90% of commercial and Medicare-insured patients have coverage for VYVGART for IV infusion or VYVGART Hytrulo for subcutaneous injection.* However, your insurance coverage for VYVGART depends on the terms and conditions listed in your insurance plan.

- ➔ **Coverage** is your legal entitlement to payment or reimbursement for certain healthcare costs. Generally, this is specified under a contract with a health insurance company, a group health plan offered in connection with employment, or a government program like Medicare or Medicaid

Medicare

Medicare is a federal insurance program for adults aged 65 years or older. Younger individuals with certain types of disabilities may also qualify.

Medicare may cover treatments for FDA-approved indications. This insurance program has 4 parts (A, B, C, and D), each providing a specific type of coverage.

- ➔ **Medicare Part A** covers inpatient hospital stays, care in a skilled nursing facility, hospice care, and some home healthcare
- ➔ **Medicare Part B** helps cover doctors' and other healthcare providers' services, outpatient care, home healthcare, durable medical equipment, and many preventive services
- ➔ **Medicare Part C** (Medicare Advantage) is a Medicare-approved plan from a private company that offers an alternative to Original Medicare for your health and drug coverage. These "bundled" plans include Part A, Part B, and usually Part D
- ➔ **Medicare Part D** helps cover the cost of prescription drugs
- ➔ **Medicare Supplement Insurance** (Medigap) is extra insurance you can buy from a private company that helps pay your share of costs in Original Medicare. Generally, you must have Original Medicare—Part A and Part B—to buy a Medigap policy

Medicaid

Medicaid is a health insurance program that is administered by the government. Medicaid may provide coverage for families with low income, individuals who are pregnant, older adults, and people with disabilities. Each state has different eligibility rules.

*Based on published policies from Policy Reporter as of August 2024.

Dual eligibility

People who are enrolled in both Medicare and full-benefit Medicaid and/or a Medicare Savings Program have dual eligibility.

- ➔ **Medicare Savings Programs** assist with Medicare Part A and B expenses for people with low incomes

Commercial insurance

Commercial insurance, also called private insurance, is provided and administered by a private insurance company. You may receive this insurance from your employer or purchase it from the Health Insurance Marketplace.

No health insurance

If you do not have insurance, you can purchase a health insurance plan from the Health Insurance Marketplace during Annual Enrollment or a qualifying life event. Reviewing a plan's summary of benefits and coverage (SBC) can be helpful when deciding which plan to choose.

- ➔ **An SBC** is a short, plain-language summary about a health plan's benefits and coverage that you can use to review the benefits and cost of an insurance plan

My VYVGART Path can help you understand your insurance

My VYVGART Path is a patient support program that provides personalized support from committed Nurse Case Managers (NCMs). The team at My VYVGART Path can help you navigate your insurance and understand your insurance plan.

NCMs may be able to inform you about potential financial assistance programs, check your eligibility for the VYVGART Co-pay Program, and refer you to charitable foundations that may help cover some of your out-of-pocket costs.

To get started, visit enrollMVP.com to sign up or ask your doctor to enroll you in My VYVGART Path.

Navigating cost and coverage

Your **out-of-pocket** cost for treatment may vary depending on your insurance plan. Different factors such as your insurer's **co-pay**, **co-insurance**, **deductible**, **site of care**, and **out-of-pocket maximum** requirements for medications may impact your treatment cost.

Where you receive treatment and whether your provider or **specialty pharmacy** is in **network** may also affect your out-of-pocket costs.

- **Out-of-pocket costs** are your expenses for medical care that aren't reimbursed by insurance. Out-of-pocket costs include deductibles, co-insurance, and co-payments for covered services plus all costs for services that aren't covered
- **Co-pay**, also called a co-payment, is a fixed amount you pay for a covered healthcare service and/or prescription medication after you've paid your deductible
- **Co-insurance** is the percentage of costs of a covered healthcare service you pay after you've paid your deductible
- **Deductible** is the amount you pay for covered healthcare services before your insurance plan starts to pay
- **Site of care** is the physical location of your treatment. Examples of a site of care include hospital inpatient, hospital outpatient, doctor's office, and home-based setting
- **Out-of-pocket maximum** is the most you have to pay for covered services in a plan year. After you spend this amount on deductibles, co-payments, and co-insurance for in-network care and services, your health plan pays 100% of the costs of covered benefits
- **Specialty pharmacy** is a pharmacy that provides medications that require special handling, storage, and delivery
- **Network** is comprised of the facilities, providers, and suppliers your health insurer or plan has contracted with to provide healthcare services

What is an explanation of benefits?

After starting treatment, your insurance provider may mail you an explanation of benefits (EOB). An EOB is a statement that explains how much of the treatment costs your insurance will cover and what your potential out-of-pocket cost may be.

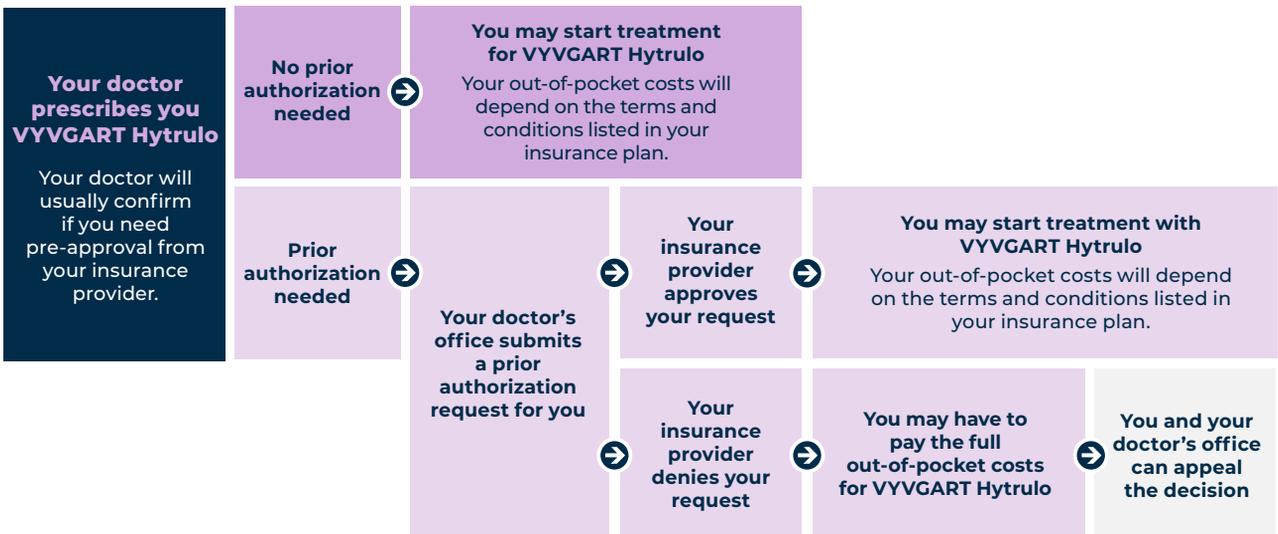

- ➔ **An EOB** is often sent to you after your provider or specialty pharmacy submits a claim to insurance for the treatment you've received. It's important to remember that an EOB is not your treatment bill

Do you need prior authorization for VYVGART?

Many insurance plans require prior authorization for VYVGART. Prior authorization, also called a pre-authorization or pre-approval, is a process insurance providers use to determine whether they will provide insurance coverage for specific healthcare services, prescriptions, or equipment.

- ⚠ **Each insurance company's timeline for the prior authorization process may vary.** You can reach out to the team at My VYVGART Path to receive more information and updates about the insurance process

Overview of the prior authorization process

Explore potential financial assistance programs

If you have financial concerns or gaps in your insurance coverage, My VYVGART Path may be able to provide you with personalized support, resources, and information.

Once your doctor enrolls you in My VYVGART Path, the team will complete a benefits investigation to help provide you with personalized information about your insurance coverage, potential financial assistance programs, and possible out-of-pocket costs.

- ➔ **If you have commercial or private insurance**, you may be eligible for assistance through the VYVGART Co-pay Program. Eligible commercially insured patients may pay as little as \$0 for VYVGART and may receive a maximum benefit of \$25,000 per calendar year for their eligible out-of-pocket costs for the drug and drug administration
- ➔ **If you do not have health insurance**, you may be eligible for financial assistance through the My VYVGART Path Patient Support Program

A photograph showing a group of people sitting at an outdoor table. A woman in the center is talking on a mobile phone. To her right, a man in a purple shirt is looking towards her. Another woman is partially visible behind the man. The table is set with plates of food, a pitcher of orange juice, and a coffee cup. The background shows a lush green outdoor setting with trees and a building.

Frequently asked questions

→ Why is it taking so long to receive a decision from my insurance provider?

The insurance pre-approval process may take longer for certain medications. Other factors such as missing information, an incomplete application, or a delayed submission can impact how long it takes to receive a decision.

If you're enrolled in My VYVGART Path, the team can provide updates on the prior authorization process and provide educational support to your doctor's office during the insurance process.

→ What if I don't have health insurance or I cannot afford my treatment?

If you do not have health insurance coverage, you may be eligible for financial assistance through My VYVGART Path, a patient support program. Ask your doctor to enroll you in the patient support program. Once you're enrolled, NCMs can share information about potential financial assistance programs you may be eligible for.

Charitable foundations may be able to provide financial assistance for specific conditions and costs associated with treatment. However, funding from foundations may not be guaranteed and may differ from year to year. NCMs may be able to refer you to charitable foundations that may be able to help with your out-of-pocket costs.

→ What if my insurance denies coverage for my treatment?

You may still be able to receive treatment, but your out-of-pocket costs may be high if you do not obtain insurance coverage. If you're denied coverage for VYVGART, the team at My VYVGART Path may be able to assist your healthcare provider with the appeal process. If the appeal process is exhausted, an NCM from My VYVGART Path may be able to provide information on potential financial assistance programs.

→ How will I know what my out-of-pocket costs will be?

Your out-of-pocket costs may vary depending on your insurance plan. Many different factors may impact your treatment cost. You can contact your doctor's office, specialty pharmacy, site of care, or your insurance provider's customer service to learn more about potential out-of-pocket costs you may have. You can also review your plan's EOB to see a description of what costs your insurance plan may cover.

If you're enrolled in My VYVGART Path, you can reach out to the team to complete a benefits investigation. The team can review your coverage and inform you about potential out-of-pocket costs you may have for VYVGART.

→ Will I receive a bill from my site of care?

You may get a bill from your site of care. A site of care is the physical location where you receive an infusion or injection. Examples of site of care locations include an infusion center, your doctor's office, or an ambulatory infusion site. Your bill may also include costs for infusions or injections you received at home. Contact your site of care's billing department if you have any questions about your treatment bill.

Glossary

➔ Benefits investigation

A benefits investigation is a review process with the aim of assessing a patient's medical or pharmacy insurance benefits.

➔ Claim

A claim is a request for payment that you or your healthcare provider submits to your health insurer for covered healthcare services and treatments.

➔ Commercial insurance

Commercial insurance, also called private insurance, is provided and administered by a private insurance provider. You may receive this insurance from your employer or purchase it from the Health Insurance Marketplace.

➔ My VYVGART Path

My VYVGART Path is a patient support program that provides personalized support from a Nurse Case Manager and committed support team.

➔ In-network

The healthcare providers, facilities, and suppliers that your health insurer or plan contracts with to provide healthcare services.

➔ Out-of-network

The healthcare providers, facilities, and suppliers that your health insurer has not contracted with to provide healthcare services.

➔ Prior authorization

Most insurance companies need to pre-approve specific healthcare services, prescriptions, or equipment before you can receive it. This process for getting approval is called a prior authorization (pre-authorization).

➔ Specialty medication

A specialty medication is a prescription that requires special handling, requires special administration, or is a high-cost treatment.

➔ Summary of benefits and coverage

Summary of benefits and coverage is a short, plain-language summary of a health plan's benefits and coverage. You can use it to compare the benefits and costs of different insurance plans.

IMPORTANT SAFETY INFORMATION

Do not take VYVGART if you are allergic to efgartigimod alfa or any of the ingredients in VYVGART. Do not take VYVGART HYTRULO if you are allergic to efgartigimod alfa, hyaluronidase, or any of the ingredients in VYVGART HYTRULO. VYVGART or VYVGART HYTRULO can cause serious allergic reactions and a decrease in blood pressure leading to fainting.

Before taking VYVGART or VYVGART HYTRULO, tell your healthcare provider about all of your medical conditions, including if you:

- have an infection or fever.
- have recently received or are scheduled to receive any vaccinations.
- have any history of allergic reactions.
- have kidney (renal) problems.
- are pregnant or plan to become pregnant. It is not known whether VYVGART or VYVGART HYTRULO will harm your unborn baby.
 - Pregnancy Exposure Registry. There is a pregnancy exposure registry for women who use VYVGART or VYVGART HYTRULO during pregnancy. The purpose of this registry is to collect information about your health and your baby. Your healthcare provider can enroll you in this registry. You may also enroll yourself or get more information about the registry by calling 1-855-272-6524 or going to VYVGARTPregnancy.com
- are breastfeeding or plan to breastfeed. It is not known if VYVGART or VYVGART HYTRULO passes into your breast milk.

Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

VYVGART or VYVGART HYTRULO can cause side effects which can be serious, including:

- **Infection.** VYVGART or VYVGART HYTRULO may increase the risk of infection. If you have an active infection, your healthcare provider should delay your treatment with VYVGART or VYVGART HYTRULO until your infection is gone. Tell your healthcare provider right away if you get any of the following signs and symptoms of an infection:
 - fever
 - chills
 - frequent and painful urination
 - cough
 - pain and blockage of nasal passages
 - wheezing
 - shortness of breath
 - sore throat
 - excess phlegm
 - nasal discharge
- **Allergic reactions (hypersensitivity reactions).** VYVGART or VYVGART HYTRULO can cause allergic reactions that can be severe. These reactions can happen during, shortly after, or weeks after

your VYVGART infusion or VYVGART HYTRULO injection. Tell your healthcare provider or get emergency help right away if you have any of the following symptoms of an allergic reaction with VYVGART or VYVGART HYTRULO:

- rash
- swelling of the face, lips, throat, or tongue
- shortness of breath
- trouble breathing
- low blood pressure
- fainting

An additional symptom of an allergic reaction with VYVGART HYTRULO can include hives.

- **Infusion or injection-related reactions.** VYVGART can cause infusion-related reactions. VYVGART HYTRULO can cause infusion or injection-related reactions. These reactions can happen during or shortly after your VYVGART infusion or VYVGART HYTRULO injection. Tell your healthcare provider if you have any of the following symptoms of an infusion or injection-related reaction:
 - high blood pressure
 - chills
 - shivering
 - chest, stomach, or back pain

The most common side effects of VYVGART or VYVGART HYTRULO include respiratory tract infection, headache, and urinary tract infection. An additional common side effect with VYVGART HYTRULO includes injection site reactions.

These are not all the possible side effects of VYVGART or VYVGART HYTRULO. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

What is VYVGART® (efgartigimod alfa-fcab) for intravenous (IV) infusion and what is VYVGART HYTRULO® (efgartigimod alfa and hyaluronidase-qvfc) for subcutaneous injection?

VYVGART and VYVGART HYTRULO are both prescription medicines used to treat adults with generalized myasthenia gravis (gMG) who are anti-acetylcholine receptor (AChR) antibody positive.

It is not known if VYVGART or VYVGART HYTRULO is safe and effective in children.

Please see full [Prescribing and Patient Information for VYVGART HYTRULO for subcutaneous injection](#) and full [Prescribing Information for VYVGART for IV infusion](#).

Dosage forms and strengths:

VYVGART Hytrulo is available as a single-dose subcutaneous injection containing: 200 mg/mL of efgartigimod alfa and 2,000 U/mL of hyaluronidase per prefilled syringe, or 180 mg/mL of efgartigimod alfa and 2,000 U/mL of hyaluronidase per vial. VYVGART is available as a single-dose injection for intravenous use containing 400 mg/20 mL of efgartigimod alfa-fcab per vial.
